## Overview

---

This basic entry level solar power system will provide lighting for a single shipping container. The lights will be a string of 4 DC LED A bulbs which operate on a timer switch. The lights and timer switch easily setup. The 500W Solar Street Light is equipped with 360 LED chips, providing high brightness and a wide beam angle (85°-145°), ensuring optimal illumination across a large area for enhanced safety and security. This solar light utilizes a high-efficiency solar panel, offering an energy conversion. This solar light kit offers an affordable solar light system perfect for providing solar powered security light solutions in shipping containers, isolated containers, garages, basements, cabins, remote cabinets, campsites, and areas where traditional power is inconvenient. Powerful Motion Activation: Lights up automatically when motion is detected to deter unwanted visitors and provide enhanced nighttime safety. Durable Materials: Upgrade your shipping container home or office with a solar power kit and make the transition to off the grid living effortless! This system is designed to easily connect all your essential appliances (air-conditioners, computers, lights, microwaves and more). It's equipped with a 3000 watt power.
