All. - The UE720 T-66HBD is a high-wattage TOPCon bifacial module designed for utility-scale and large commercial PV systems. With a front-side rated power of up to 720W, N-type 210mm half-cut cells, dual-glass design, and up to 25% rear-side gain, it ensures top-tier efficiency and long-term energy. The Canadian Solar TOPBiHiKu7 720W Solar Module represents a significant advancement in photovoltaic technology. Utilizing N-type TOPCon cells, this high-power module delivers exceptional efficiency of up to 23.2%, making it an excellent choice for both commercial and residential solar. Panel “Size” vs Physical Dimensions: The most critical distinction for homeowners is that solar panel “size” refers to electrical output (measured in watts), not physical measurements. A 400W panel has the same physical footprint whether it produces 350W or 450W – the difference lies in cell. Our 720 Watt module is highly recommended for residential homes and personal usage, as it drives performance to the highest level with its 132 half-cut cells and multi busbar solar cell to improve the efficiency of the module up to 23.2% efficiency on a robust bifacial, dual-glass platform and super.
