

Australian shingled solar manufacturer

GRADE A BATTERY

LiFePO₄ battery will not burn when overcharged over discharged, overcurrent or short circuit and can withstand high temperatures without decomposition.

Overview

Shining bright as the only certified Australian Made solar panel manufacturer, Tindo Solar 's story is one of innovation and continuous improvement. Tindo was established in 2011 with a desire to create purpose-built solar panels that conquer the unique conditions of the Australian. Discover our premium shingled solar panels designed for Australian homes, businesses, and off-grid systems. Featuring advanced shingled cell technology, these panels deliver higher efficiency, better low-light performance, and improved shading tolerance compared to traditional solar panels. Perfect. This guide reviews leading players in the Australian solar panel market—including local producers such as Tindo Solar and ASM Solar, alongside international heavyweights like Canadian Solar, Longi, JinkoSolar, and Hanwha Q Cells—to help you make an informed decision. Founded in 2011 by Adrian Ferraretto, Richard Inwood, and Ben Kerry, Tindo was established with a dream to create a high-quality solar solution. As Australia's only solar manufacturer, Tindo is on a mission to make high-quality, locally-made solar panels accessible for all Australians. We have implemented numerous systems and processes that set our manufacturing facility apart.
