

Baku solar energy policy

Overview

Azerbaijan has launched the country's biggest renewable energy investment project to date: the construction of two solar plants and a wind power plant. It marks a major step in Baku's ambitious plan to generate 30 percent of its power needs via renewable sources by 2030. Baku, The Gulf Observer: The Government of the Republic of Azerbaijan signed key investment and implementation agreements for three new solar energy projects as part of the 11th Southern Gas Corridor Advisory Council Ministerial Meeting and the 3rd Green Energy Advisory Council Ministerial Meeting. Agreements on three solar energy projects were signed in Baku as part of the 11th Ministerial Meeting of the Southern Gas Corridor Advisory Council and the 3rd Ministerial Meeting of the Green Energy Advisory Council. Energy Minister Parviz Shahbazov and CEO of the company Eldar Mammadzade signed. Azerbaijan's first utility-scale solar facility, the 230 MW Garadagh plant, became operational in late 2023. 1209, dated 29 May 2019 on accelerating reforms in the. According to the Charter, the State Agency is a body involved in the formation and implementation of state policy in the field of renewable energy sources and their efficient use.
