

# Brussels battery recycling

## Overview

---

Belgian residents have until 17 March to bring all their used batteries to one of 25,000 Bebat collection points, that are normally found in supermarkets, public spaces and car parks. How do we do that, and how can you help?

You will discover that here. A major nationwide campaign to collect and recycle used batteries is drawing to a close next Monday, with the aim of hitting a target of 155 million. Belgium's environmental organisation Bebat launched its month-long "Mission Possible" campaign in mid-February to coincide with International Battery. Battery Supplies is a distributor that offers a wide range of batteries and related products, which may include options for battery recycling and repair services. With a commitment to quality and a vast inventory, they ensure reliable solutions for various battery needs. Besides services like. Find here a list of European battery recyclers and the central point of contact for collecting batteries in the EU.
