

# Can photovoltaic panels be purchased individually

## Overview

---

If you're looking to buy your own solar panel equipment (maybe for a DIY solar project), online sellers like Amazon and wholesale resellers have some options. For a full installation, solar installers have "solar panels for sale" around the country. Local pickup saves significantly: Choosing retailers with local pickup options can save \$50-\$200 per order while eliminating the 20% shipping damage risk that affects freight deliveries of solar panels. 19/watt for wholesale. Do any online or physical retailers sell individual solar panels?

I've googled and looked at all the normal online retailers and it seems that 10 panels is the minimum unless you want to pay absurd prices for panels. Can anyone point me in the right direction?

I live in NJ if that helps. If you're handy and capable with electrical work, you may be able to install solar panels yourself, but you'll likely need permits and other arrangements with your local electricity provider in order to tie your. Where you buy your solar panels from or who you decide to contract with for installation will depend on your personal preferences, how you want to finance the system, and the type of system you want to install. These solar installers then plan and execute the installation, and many monitor the system. Today's premium monocrystalline solar panels typically cost between 30 and 50 cents per Watt, putting the price of a single 400-watt solar panel between \$120 to \$200, depending on how you buy it.
