

Container photovoltaic panel support

LPW48V100H
48.0V or 51.2V

Overview

Yes, we offer comprehensive after-sales support including remote monitoring, maintenance services and technical support. Our mobile photovoltaic containers come with a warranty and optional service packages to ensure optimal performance throughout their lifespan. Our solar support structures enable 6-24 solar modules to be mounted on roof surface of standard 20-40 ft shipping containers. One of the most innovative uses of solar panels is their installation on shipping containers, offering a portable and versatile platform for generating solar. This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations. Folding. Stealth Power provides fleet electrification and off grid solar solutions for customers of all kinds.
