| 3 | Grid side circuit breaker | 8  | BAT side circuit breaker  |
| 4 | Load side circuit breaker | 9  | LCD display screen        |
| 5 | OPV1 side circuit breaker | 10 | MPPT                      |

## Overview

---

Spearheaded by a partnership between the Electricity Authority of Cyprus (EAC) and Swedish energy technology company ABB, the BESS project is located near the town of Vasilikos and has an initial capacity of 50 megawatts (MW), with plans for future expansion. PKENERGY partners with Antonis Jeropoulos Energy Systems in Limassol to deliver advanced lithium battery solutions focused on rooftop PV self-consumption, villa backup, EV support and hotel energy management across Cyprus. \* Compatible with mainstream hybrid inverter brands used in Cyprus. Whether you want to. The Apollon PV Park has commissioned a 3. From ESS News Cyprus has taken a step toward modernizing its energy infrastructure with the commissioning of a 3. While this model ensured supply continuity in the past, it has also resulted in high energy costs, grid inflexibility, and limited capacity to absorb renewable. The energy regulator has approved a significant battery storage system totalling 120MW across three locations to enhance grid stability and security, marking a crucial step for the island's electricity infrastructure. The Cyprus Energy Regulatory Authority (CERA) on Wednesday granted approval to.
