

# Delivery time for 150-foot smart photovoltaic energy storage container

## Overview

---

Transportable via standard shipping container, the system achieves full operational capability within 4-6 hours of arrival. Providing 24/7 clean energy with scalable solar capacity of 30-200kW and battery capacity of 50-500KWh. Folding solar panel inside the container can be unfolded or stowed in as little as 1h ( the time does not vary for different photovoltaic containers ). Maximum solar yield power generated annually with 400 kWh per day as average energy output. Do you offer after-sales support for mobile solar PV. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up.
