

# Denmark first solar

## Overview

---

Equinor has officially launched its first solar energy facility in Denmark, marking a significant advancement in its commitment to renewable energy. The Ingerslev Å solar plant, located in Jutland, boasts a capacity of 65 MW and is operated by BeGreen, a subsidiary wholly owned by Equinor. Production has commenced at the 65 MW Ingerslev Å solar plant located in Jutland, Denmark. The plant, consisting of more than 1.5 million solar panels, is a testament to Equinor's commitment to sustainable energy. We're proud to announce that Ingerslev Å Solar Park - our very first project in Denmark - has officially begun producing clean electricity.
