

# Distributed solar panels in the Democratic Republic of the Congo

## Overview

---

Over 17 off-grid solar companies are registered in the DRC; of which a handful of companies, including Congolese companies such as Altech, GoShop and Weast Energie, and international companies such as BBOXX and Orange Energie, have sold over 200,000 solar lanterns. Over 17 off-grid solar companies are registered in the DRC; of which a handful of companies, including Congolese companies such as Altech, GoShop and Weast Energie, and international companies such as BBOXX and Orange Energie, have sold over 200,000 solar lanterns. Gain comprehensive insights into the statistics and metrics surrounding the solar production industry in Democratic Republic of the Congo The Democratic Republic of Congo receives an average 1,740 hours of sunlight per year. 1 In the Democratic Republic of Congo (DRC), the yearly average energy. IZUBA is a solar energy company established in the Democratic Republic of Congo and headquartered in Goma / North-Kivu, that specializes in EPCM (engineering, procurement, construction and management) services for grid-tied and off-grid / mini-grid solar PV projects. IZUBA is committed to helping. Our company, CongoSun is proud to be the exclusive distributor of Sunsynk solar products in the Democratic Republic of Congo (DR Congo). As the world shifts towards renewable energy sources, the DRC is positioning itself to harness solar power through utility-scale solar projects. The community PV project will supply power to more than 300 users, including six health centers, 224 small businesses, and 89 households.

## Distributed solar panels in the Democratic Republic of the Congo

---

### Solar Solutions in the Democratic Republic of Congo

Providing solar energy solutions for households and businesses is crucial to incorporating more Congolese people into electrical grids, but many in poorer, remote regions in the DRC also ...
