5G Implementation in the Dominican Republic

In the first days of December 2021, the operator launched its 5G service in 29 sectors of Santo Domingo and began 2022 by announcing an expansion plan that involved laying 230 new kilometers of

Dominica urgently needs 5G base station installation

By late 2023, the country had between 150,000 and 200,000 active 5G base stations. The deployment strategy in the U.S. is different from China's, as it relies on private investment rather than government-led initiatives.

Dominica Communications Green

Base Station Bidding

· The rollout of 5G services needs the establishment of an extensive network of radio base stations and small cells to support very high-speed data transmission and ubiquitous
