

# Does Huawei still produce solar inverters

RS485  
Communication between battery and inverters  
Baud rate:9600bps

RS485 Interface  
Communication between parallel packs or BMS and PC  
Baud rate:9600bps

## Overview

---

Unlike traditional solar panel manufacturers, Huawei does not produce PV modules. HUAWEI FusionSolar advocates green power generation and reduces carbon emissions. It provides smart PV solutions for residential, commercial, industrial, utility scale, energy storage systems, and microgrids. It builds a product ecosystem centered on solar inverters, charge controllers, and energy. Huawei remains a top-tier producer of photovoltaic inverters, commanding 23% of global market share as of Q1 2025 according to Wood Mackenzie's latest renewable energy report. But how did they achieve this dominance amidst fierce competition?

Let's unpack their strategic moves. The rankings evaluate 23 leading. Global demand for solar-power hardware shows few signs of slowing. Wood Mackenzie's newest inverter market report says shipments rose 10 % in 2024 to an all-time high of 589 GWac, fuelled by rapid installation booms across China, India and the Gulf, even as European and U. What Happened?

The Financial.
