Libya's NOC Prepares Global Tender to Attract Top Energy Companies

The National Oil Corporation (NOC) held an expanded meeting in Tripoli with senior state institutions, including the Attorney General, the President of the Audit Bureau, and the Governor of ...

Libya , Africa Energy Portal

Libya is a fully electrified country. Most of the population has access to the grid, but a few remote areas rely mostly on diesel generation. The grid serves about 1.2 million customers, mostly concentrated in ...

Tripoli's Electricity Crisis and its Politicisation (1) - Libya Tribune

This policy brief looks at the electricity crisis affecting the greater Tripoli area, where the mismanagement, exploitation and politicisation of Libya's third-largest industrial sector has had ...

Tripoli's Electricity Crisis and its Politicisati

The EU and its member states should take initiatives to deploy European technology and expertise to repair and bolster the Tripoli area's electricity infrastructure.

In Tripoli, a total blackout is already almost a reality

Power supply from the state-owned Électricité du Liban has been practically nonexistent over the past weeks. Just like in other parts of the country, supply hours often don't exceed two per day.

Libya: Agreement to protect Tripoli's energy infrastructure

A crucial agreement has just been sealed in Tripoli to ensure the security of strategic infrastructures, particularly those linked to energy, against a backdrop of high tension. The agreement involves ...

Tripoli (Lebanon).

Libya's Escalating Power Struggle

As people switched on their air conditioners, they drove up demand for electricity, forcing the state utility company to impose rolling blackouts of four hours or more.

Tripoli's Electricity Crisis and its Politicisation

Against 2020's unusual backdrop, this policy brief dissects the main dynamics of the nine-year-long electricity crisis affecting Tripoli. In doing so, it provides an overview of how the crisis has been ...

Residents await electricity in war-battered Tripoli

Calm might have returned to Tripoli after recent fighting, but electricity shortages still plague the Libyan capital, where generators chug incessantly and power

cuts make for another long
