

Financing for Oman s High-Efficiency Mobile Energy Storage Container Project

Overview

For a hydrocarbon exporting state that historically relied on natural gas for power generation, the Ibri III project functions as both industrial demonstration and clean power deployment. Project financing has been secured with Natixis Corporate and Investment Banking and First. Masdar and its consortium partners have reached financial close on the Ibri III Solar Independent Power Project in Oman, the first utility scale solar facility in the country to integrate a battery energy storage system. The Ibri III Solar Independent Power Project will combine a 500MW photovoltaic plant. Natixis and First Abu Dhabi Bank provided financing for the Ibri III solar and storage project developed by Masdar, Al Khadra Partners, KOMIPO and OQ Alternative Energy in Oman. [Link copied! Copy failed!](#) Ibri III has combined 500 MW solar PV with 100 MWh storage, backed by Natixis and FAB financing.

Financing for Oman's High-Efficiency Mobile Energy Storage Containers
