

Free installation of solar power station

Overview

The federal government does not provide free solar panels, but many states and utilities offer incentives that can reduce the cost of going solar. You can install solar panels on your roof with no upfront cost by signing a lease or PPA or taking out a \$0-down loan. When something is advertised as “free,” it usually comes with a few strings attached—free solar panels are no exception. Companies that offer “free” solar panels are typically offering solar lease agreements, so you can reap the benefits of solar-powered electricity without dealing with the upkeep. These offers often refer to solar leases or power purchase agreements (PPAs), financing options where a solar company installs panels on your property without requiring a down payment. In August of 2022, the United States Congress extended the ITC while at the same time raising the total. There's no such thing as free solar panels.
