## Overview

---

Grenada is an island country located between the Caribbean Sea and Atlantic Ocean, north of Trinidad and Tobago. There are no large inland bodies of water on the island, which consists entirely of the state of Grenada. The island has 15 constituencies. Covering a total area of only 348. The islands of the country of Grenada are all volcanic in origin and vary in. Encyclopaedia Britannica's editors oversee subject areas in which they have extensive knowledge, whether from years of experience gained by working on that content or via study for an advanced degree. It is roughly oval shaped, 21 miles long, and about 12 miles wide.
