

# Home photovoltaic panel investment income

## Overview

---

The return on investment of a solar panel installation depends on its location, performance, efficiency and size, but 10% is average. You can maximize your solar panel ROI by taking advantage of rebates and other incentives and participating in net metering through your local. With solar panel costs dropping by approximately 50% since 2010 and the federal tax credit currently at 30% (though under threat of elimination by December 2025), homeowners are increasingly asking: is solar a good investment?

The short answer is yes, for most homeowners. Solar panels typically. Installing solar panels is a long-term investment that can pay for itself through utility bill savings. 1 Installation costs are dropping, too.
