

# Household solar and wind power generation design

## Overview

---

Building your own hybrid solar-wind power system can greatly reduce your reliance on the grid and lower energy costs. You'll need to evaluate your energy needs, choose the right components like solar panels, wind turbines, and batteries, and select an ideal site for installation. Small wind. Designed and built over 100 custom tiny homes, lived on a sailboat for 9 months, and loves to live life to the fullest with his wife and their 4 kids. Proper setup. Harness the combined power of sun and wind to slash your energy bills by up to 90% through modern hybrid renewable energy systems.
