-10~50°C

Overview

These compact, plug-and-play, and off-grid home battery backup solutions help people who need solar that fits their lifestyle without requiring a complicated rooftop setup. You don't need rooftop solar panels to access solar power. The price of electricity from the grid has been trending upward for a while now, for one. Still, brilliant technological advancements have made it possible for everyone to access solar power without having to put panels on the roof. Or you. Whether you're a renter, live in a shaded area, or simply prefer not to install equipment, you can still tap into clean, affordable solar power. Rhythm Energy offers 100% solar plans that empower anyone—homeowner, renter, or business—to support renewable energy without rooftop panels. Let's break down what off-grid living takes and how to do it right. Even if it's on a small scale, read on to learn about the progressive ways you can let the sun shine in while watching your traditional energy usage decline.
