

How is JA Solar s photovoltaic panel company

Overview

is a leading manufacturer of high-efficiency photovoltaic solar panels, based in Shanghai, China with several global offices, including one in San Jose, California. They produce high-performance solar panels for residential, commercial, and utility-scale. In a bold step towards expanding its solar capabilities, Corning has acquired the 2 GW solar panel manufacturing facility that was previously owned by Chinese company JA Solar. This factory will now operate under the banner of American Panel Solutions, a new subsidiary established by Corning. JA Solar Holdings Co. is a solar development company founded in Yangpu district, Shanghai. Commercial scale focus: JA Solar prefers working with installers of large projects and puts a lot of resources into making powerful panels for farms and ground-based installation in general. JA Solar is one of the world's.
