

# How is the commission for photovoltaic panel business calculated

## Overview

---

The commission is usually a percentage of the total sale price, and it can range from 5% to 8% depending on factors like the sales structure, market, and company. This commission is often paid in stages. Understanding commission structures can be complex, as it involves how earnings are calculated and the factors that influence rates. Sales managers motivate teams to meet targets, CFOs align payouts with budgets, and HR ensures fair compensation.
