

# How much does JA Solar 490 photovoltaic panel cost

## Overview

---

JA Solar panels cost between £80 - £170, making them an affordable option considering their high output. We estimate that an average-sized installation using JA Solar panels will cost about \$2. The price per watt is considerably lower than you'd find from most other manufacturers, but among other affordable brands, the efficiency rating and performance specifications are above-average. For the cost, JA panels deliver. JA Solar is one of the largest global suppliers of solar panels and renewable power systems. 0 Light panels provide up to 420W output and 21.3% efficiency for residential systems. High class module - assembled with multi-busbar PERC cells, the half-cell configuration of the modules offers the advantages of higher power output, better temperature-dependent performance, reduced shading. Panels from JA Solar come at a relatively low price which makes it easier to replace broken modules. They are also sturdy and show great resilience in extreme weather conditions. One module can endure winds up to 210 mph in speed which is much higher than the wind speeds of an average tornado or a.
