

How much does a new solar panel battery cost

Overview

As of early 2025, the average cost to install a home solar battery in the U.S. ranges between \$9,000 and \$18,000 before incentives. Adding an energy storage battery to a residential solar panel system typically costs \$7,000 to \$18,000. This guide breaks down solar battery. But one of the first questions homeowners ask is: how much does a solar battery actually cost in 2025, and what will change in 2026?

The answer depends on the size, type, and brand of battery you choose, as well as where you live and what incentives you qualify for. Clicking “Get Your Estimate” submits your data to All Star Pros, which will process your data in accordance with the All Star Pros Privacy Policy. Why such a wide range?

The biggest factor is size, measured by how many kilowatt-hours (kWh) of electricity the battery can store.
