

How much is the power of the Ivory Coast solar integrated machine

Overview

Once operational, the 50 MW plant is set to generate approximately 85 GWh of clean electricity annually. This output is enough to power around 358,000 households and will offset more than 52,000 tonnes of CO₂ emissions each year, contributing significantly to the nation's climate. This project is a cornerstone of Ivory Coast's ambitious plan to generate 45% of its electricity from renewable sources by 2030. Dubai-based AMEA Power has taken a decisive step forward with its 50 MW solar photovoltaic (PV) project in Ivory Coast, reaching financial close and advancing. Abidjan, Côte d'Ivoire, August 7th, 2025 - IFC and the Government of Côte d'Ivoire today announced Infinity Power Holding as the winning bidder to design, finance, build, and operate two grid-connected solar PV plants in Côte d'Ivoire. The plants will bring clean, reliable electricity to more than. The Ivory Coast is set to begin construction of the \$63.5 million Ferke Solar power plant in Sokoro, which will have an installed capacity of 52 MW. Mamadou Sangafowa Coulibaly, the Ivory Coast's Minister of Mines, Oil and Energy, has announced plans to install 678 MW of solar ca solar power plant and installs.

How much is the power of the Ivory Coast solar integrated machine

Ivory Coast Advances Solar Energy Projects
