50 Kwh

Thick shell, well protection for inside cells

BMS customization supported

The advertisement features three stacks of white solar power units on wheels. The left stack is labeled '20 Kwh', the middle stack '30 Kwh', and the right stack '50 Kwh'. Each unit has a small digital display and control panel. The background shows a house and a clear sky. A communication icon (CAN/RS485/WIFI/4G) is in the top right, and a BMS icon is in the top right corner of the unit area. Two green callouts at the bottom describe the units' features.

Overview

Each system, including 5 kW panels, a 10 kWh lithium battery bank, and real-time remote monitoring, cost around USD \$25,000, including shipping and installation. Let's talk about actual prices. Here are standard ballpark estimates (in USD):. But one of the first questions they ask is: How much does it actually cost to go off-grid in Canada in 2025?
