

# How to charge solis inverter

## Overview

---

TLDR In this instructional video, Travis demonstrates how to set up time-of-use charging for a hybrid inverter through the Solas Cloud platform. Viewers learn to access the inverter control, enable self-use, and configure time-of-use settings for optimal charging. Setting up the battery time charging on your Solis Inverter doesn't have to be a complex process. In this easy-to-follow guide, we break down all the steps you need to optimize your Solis Inverter's battery time charging function, ensuring you reap the benefits of a well-configured system, all done. In this video, we will explore the details of configuring self-use with time charging for your solar power system. ?

It'll depend what rate (s) you get for export. It is then possible for them to charge up their battery on this cheap tariff to supplement charging from solar, particularly in the winter. Here I will cover the process for setting this up on a Solis inverter; for other inverter makes visit our Support Questions page.
