

# Huawei Estonia solar Energy Storage Project

**215kWh**

8,000+ Cycles Lifetime

IP54 Protection Degree

## Overview

---

Pikkori is the largest energy storage solar park in Estonia, featuring a 2 MWh Huawei battery at its core. The solar park strategically positions its solar panels to face both east and west, meaning electricity is generated over a longer period of time compared to south-facing parks. [pdf] The. HUAWEI FusionSolar advocates green power generation and reduces carbon emissions. It provides smart PV solutions for residential, commercial, industrial, utility scale, energy storage systems, and microgrids. It builds a product ecosystem centered on solar inverters, charge controllers, and energy. The flagship battery storage project commenced operations on February 1, only days before cutting ties with the Russian power grid. Estonian state-owned energy company Eesti Energia has inaugurated the nation's largest battery energy storage facility at the Auvere industrial complex in Ida-Viru. Greek energy company Faria Renewables and Chinese tech giant Huawei have announced a strategic partnership to advance battery energy storage system (BESS) projects in Greece.

## Huawei Estonia solar Energy Storage Project
