

Huawei s solar panels in Israel

Overview

Chinese telecom giant Huawei, known in Israel for its competitively priced smartphones, is entering the Israeli solar power market to sell inverters, which help to convert solar power into energy for the electricity grid. It builds a product ecosystem centered on solar inverters, charge controllers, and energy. Chinese telecommunications company Huawei Technologies Co. Huawei, the world's leading inverter supplier, has signed an agreement with Zing Energy -. The use of solar energy began in Israel in the 1950s with the development by Levi Yissar of a solar water heater to address the energy shortages that plagued the new country. [1] By 1967 around 5% of water of households were solar heated and 50,000 solar heaters had been sold.
