

# Indonesia Energy Storage Battery Procurement

## Overview

---

Chinese battery producer CATL and Korean corporations LG Energy Solution and Hyundai have announced production facility investments, motivated by nickel resource availability and market growth projections. These investments facilitate technology transfer and cost localization. Although the current framework is built on strong planning instruments and ambitious goals for renewable energy, electric vehicle production and charging stations deployment, further progress requires enhanced. The International Energy Agency, together with Indonesia's Directorate General of Electricity at the Ministry of Energy and Mineral Resources (DJK-MEMR) and state utility PLN, convened key public and private stakeholders in Jakarta for a two-day workshop on business models and financing. **IMPORTANT NOTE:** Interested vendors must respond to this tender using the UNOPS eSourcing system, via the UNGM portal. In order to access the full UNOPS tender details, request clarifications on the tender, and submit a vendor response to a tender using the system, vendors need to be registered as a. Indonesia has a unique opportunity to support the clean energy transition, enhance energy security, and spur economic growth with local battery manufacturing, bridging from the material supply all the way to pack designs and, ultimately, the manufacturing of electric cars. Following the elevation. • Market Growth: Quantitative analysis indicates Indonesian BESS market expansion from USD 3.8 billion (2031), representing compound annual growth rate of 21.6. UNITED NATIONS OFFICE FOR PROJECT SERVICES (UNOPS) has floated a tender for Request for Proposal (Rfp) - Consultancy Services for Integrating Battery Energy Storage System (Bess) into the Grid for Energy Transition (Indonesia).
