

Installed capacity of solar power generation

Installed capacity of solar power generation

Solar Capacity by State 2026

This report summarizes the latest statistics on solar power capacity by state and highlights the top U.S. states in solar power generation.

Solar energy

It is one of the fastest-growing renewable energy technologies and is playing an increasingly important role in the global energy transformation. The total installed capacity of solar PV reached 1 865 GW ...

Installed solar energy capacity

Installed solar energy capacity
Cumulative installed solar capacity, measured in gigawatts (GW).

Solar energy status in the world: A comprehensive review

A comparison of the solar power status among countries and territories has been provided, considering their concentrated solar power and PV installed capacities for each continent.

FERC: Solar + wind made up 91% of new US power generating capacity

...

Solar and wind accounted for 91% of new US electrical generating capacity added in the H1 2025, according to data just released by the Federal Energy Regulatory Commission (FERC), ...

Solar, battery storage to lead new U.S. generating capacity additions

In 2024, generators added a record 30 GW of utility-scale solar to the U.S. grid, accounting for 61% of capacity additions last year. We expect this trend will continue in 2025, with 32.5 GW of new utility ...

Solar Market Insight Report - SEIA

Solar accounted for 58% of all new electricity-generating capacity added to the US grid through the third quarter of

2025, with more than 30 GW installed.
Solar and storage, combined, ...

EIA: 99%+ of new US capacity in 2026 will be solar, wind + storage

Solar, wind, and batteries are set to supply virtually all net new US generating capacity in 2026, according to the latest EIA data.

What Is Installed Solar Capacity and Why Does It Matter?

Installed solar capacity quantifies the maximum electrical power that all solar photovoltaic (PV) and concentrated solar power (CSP) systems combined can generate at any given moment. ...
