

Israel energy storage industry

Overview

5 GW of energy storage contracts across 11 projects, with a total investment of \$840M. Israel's energy tech ecosystem is growing fast. More than 350 active startups are now developing solutions across energy generation, storage, infrastructure, and decarbonization. These companies raised over \$400 million in private capital in the past year, reflecting strong investor interest even. Energy Minister Eli Cohen (fourth from right) helps inaugurate the new National Institute for Energy and Electrochemical Storage at Bar-Ilan University, near Tel Aviv, J. The tender attracted 11 bidders. As the importance of energy storage for grid stability grows, enlight is at the forefront of the industry with our expertise in both standalone storage projects and Solar-plus-storage projects. Our platform's deep understanding of energy big data, coupled with predictive analytics and machine learning, ensures peak performance and security.
