

# Jinlang solar inverter Instructions

## Overview

---

Thanks for choosing JinKoSolar photovoltaic (PV) modules (hereafter referred to as "modules"). This manual provides important safety guidelines for the installation, maintenance, and use of the modules. What is RS485 connection between inverters and RJ45?

COM2 and COM3 are RS485 connection between inverters and both RJ45 and Terminal block are provided for use. COM4 and COM5 are the Ethernet connection via RJ45. If the voltage of PV arrays are higher than the start up voltage, the inverter will turn on. To ensure correct installation and stable power output, it is necessary to read and understand. How to install a PV inverter?

Installation User Manual 5. In this study, a dc-dc boost converter is used in each PV string and a 3L-NPC.
