

Kuala Lumpur utility-scale solar

Overview

KUALA LUMPUR: Malaysia's government has approved 13 large-scale solar projects with a total capacity of 1,975 megawatts, the energy transition ministry said on Tuesday. Analysts noted that this marks the largest rollout of LSS projects in the nation's history, keeping solar players occupied with engineering, procurement, construction, and commissioning (EPCC) works through 2027. Get breaking news fast — follow us on WhatsApp and Telegram. Tenaga Nasional Berhad is set to build 2. As a trusted solar company in Malaysia, we have developed more than 3,200MW of ongoing and completed projects across 8 countries in the Asia Pacific. Coara Solar develops and builds utility scale renewable energy projects for commercial rooftops, large scale ground mounted Solar Utility Farms and Solar Island Solutions focusing on emerging markets in South East Asia, Europe and Australia.
