

Kyrgyzstan energy storage project construction begins

Overview

Jun 5, Kyrgyzstan has begun construction of its first-ever wind power plant, marking a significant step toward diversifying the country's energy mix and addressing chronic electricity shortages. AzerEnergy has received equipment for its 500 MWh battery energy storage (BESS) rollout, announced in September 2025. Installation of all projects will be completed in April 2026. This initiative is part of a broader national strategy to modernize its aging grid and. On 25 September 2025, the Ministry of Economy and Commerce of the Kyrgyz Republic, Rosatom's Fuel Division, Energy Solutions Kyrgyzstan LLC (a company of Rosatom operating in the country), and Elbrus Construction Company LLC signed an agreement at the World Atomic Week (WAW — 2025) international. The Cabinet of Ministers of Kyrgyzstan has signed an agreement with Rosatom's Fuel Division, Energy Solutions Kyrgyzstan LLC, and Elbrus Construction Company LLC.
