

Laos New Energy Station

Overview

The interconnection base, located across Oudomxay, Luang Namtha, and Phongsaly provinces in northern Laos, is a cornerstone of the China-Laos Power Interconnection Project. It is designed as a comprehensive renewable energy hub, integrating solar, wind, and biomass power. A booster station of the wind power project. The Laos Monsoon 600 Megawatts Wind Power Project, undertaken by POWERCHINA, energized its 500-kilovolt booster station and No 1 and No 2 115kV booster stations on Feb 16. In a determined push to secure energy stability, Laos is intensifying efforts to expand its electricity infrastructure through ambitious hydropower and solar projects. Electricite du Laos (EDL), the state-owned power corporation, has unveiled plans to launch new energy initiatives and upgrade the. Transmission lines of the China-Laos 500-kilovolt power interconnection project were fully connected on Thursday, marking a key milestone ahead of its planned full operation in April and opening a new cross-border channel for clean energy in the Lancang-Mekong region. A major initiative under the China-Laos Community with a Shared Future Action Plan, the project is scheduled for completion and operation in 2026. Spearheaded by China General Nuclear Power Group (CGN), the initiative brings together over 70 Chinese and. According to People's Daily, on December 18, local time in Laos, CGN's Phase I 1 GW Solar PV Project for the Northern Laos Interconnected Clean Energy Base officially commenced construction.

Laos New Energy Station

China-Laos mega power project opens channel for clean energy

Transmission lines of the China-Laos 500-kilovolt power interconnection project were fully connected on Thursday, marking a key milestone ahead of its planned full operation in April and ...

Laos, China 500kV Link to Drive Clean Energy Growth and ASEAN

The system will include a new 500-kilovolt substation in Namor district, Oudomxay Province, linking to Xishuangbanna in Yunnan, China, via a 183.5 km cross-border transmission line.
