

Liquid-cooled PCS energy storage container

**Efficient
Higher Revenue**

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPP Trackers, 150% DC Input Oversizing
- Max. PV Input Current 16A, Compatible with High Power Modules

**Intelligent
Simple O&M**

- IP66 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

**Flexible
Abundant Configuration**

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AFCI Function (Optional): when an arc-fault is detected the inverter immediately stops operation

Overview

Compared to traditional air-cooled systems, liquid cooling offers higher thermal management precision and better system stability, making it particularly suitable for high energy density and large-scale energy storage applications. GSL Energy is a leading provider of green energy solutions, specializing in high-performance battery storage systems. Our liquid cooling storage solutions, including GSL-BESS80K261kWh, GSL-BESS418kWh, and 372kWh systems, can expand up to 5MWh, catering to microgrids, power plants, industrial parks, renewable energy mix, serving as the backbone of the modern grid. The global installed capacity of battery energy storage is expected to hit storage between 2023 and 2027, and exceed 130 GW by 2030. This scalable and reliable system helps businesses optimize energy consumption, providing efficient storage and integration with renewable energy. High-density liquid cooling BESS is the only viable method to extract heat from the core of the module, making it a foundational engineering requirement, not an option. Vericom energy storage cabinet adopts All-in-one design, integrated container, refrigeration system, battery module, PCS, fire protection, environmental monitoring, etc., modular design, with the characteristics of safety, efficiency, convenience, intelligence, etc., make full use of the cabin.

Liquid-cooled PCS energy storage container

GSL Energy 1MWh-5MWh BESS Battery Container ...

GSL Energy's 1MWh-5MWh Battery Energy Storage System (BESS) in a 20FT ...

...

LIQUID-COOLED POWERTITAN 2.0 BATTERY ENERGY ...

The system occupies 32% less footprint than a conventional energy storage system with a centralized PCS, improving the LCOE and system energy density with fewer containers, easier ...

5.015MWH BESS 20' HQ Container, Liquid Cooling - KonkaEnergy

This newly updated version maximizes energy density within a standardized 20HQ container, utilizing an aisleless design to deliver high-yield energy storage with a minimized footprint.

Liquid Cooling PCS Energy Storage Container

liquid-cooled container energy storage product. This product is based on 314Ah battery cells, and the energy density per unit area is increased from the traditional 229.3kWh/m²; to 275.5kWh/m²;

customized large scale liquid cooled energy storage systems

Featuring liquid-cooling DC battery cabinet, this system excels in performance and efficiency. Its design optimization slashes lead time by 50% compared to traditional Battery Energy Storage System ...

Liquid Cooling in Energy Storage: Innovative Power Solutions

In conclusion, liquid-cooled energy storage containers are an essential component of modern power solutions. Their ability to provide efficient thermal management, enhanced ...

Liquid Cooling Energy Storage System , GSL Energy

The GSL-BESS-3.72MWh/5MWh Liquid Cooling BESS Container is a state-of-the-art energy storage solution that

integrates advanced technologies, including intelligent liquid cooling and temperature ...

GSL Energy 1MWh-5MWh BESS Battery Container (20FT) with Liquid Cooling

GSL Energy's 1MWh-5MWh Battery Energy Storage System (BESS) in a 20FT container offers a scalable, reliable, and efficient solution for commercial and industrial energy storage. Featuring ...

Containerized Liquid Cooling ESS VE-1376L

Vericom energy storage cabinet adopts All-in-one design, integrated container, refrigeration system, battery module, PCS, fire protection, environmental monitoring, etc., modular design, with the ...

The 5MWh+ BESS Era: Why Liquid Cooling is the Backbone of High ...

Explore why high-density liquid cooling BESS is essential for 5MWh+ BESS

containers, cutting costs and boosting efficiency in modern energy storage.

TAX FREE 

ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

Liquid-Cooled Energy Storage Container: A Reliable Solution for the

As a specialized manufacturer of energy storage containers, TLS offers a mature and reliable solution: the liquid-cooled energy storage container system, designed to meet growing ...
