

Longi photovoltaic panels for one year

Overview

LONGi panels use Gallium-doped silicon, which slows light-induced degradation (LID) to preserve panel efficiency over the years. It's one of the world's largest solar panel manufacturers. The panels from LONGI Solar are the ones of the most efficient solar panels with almost. Known for its reliable and high-quality monocrystalline solar panels, LONGi stands tall in both residential and commercial markets. Since its launch in 2000, LONGi Green Energy Technology Co. With a Fortune China 500 ranking at No. 168 and an. At the key node of intergenerational transition of global Photovoltaic (PV) technology, the back contact (BC) cell technology is leading the new-generation PV technology paradigm revolution, becoming the core engine to drive industry cost reduction and efficiency improvement and realize energy. Longi offers a wide range of solar panels for both residential and commercial applications, designed to meet the specific needs of different customers. For residential installations, Longi provides sleek and aesthetically pleasing solar panels that can seamlessly blend into the roofline of any. With 15 manufacturing bases and more than 30 branches around the world, LONGi produces monocrystalline silicon wafers, panels and modules, delivering solutions for distributed and ground mount power station systems, promoting the development of the global PV industry and driving energy.
