

# Mexican wind power storage policy

## Overview

---

Recognizing this, in March 2025, Mexico's government announced a mandate requiring all new solar and wind power plants to include storage systems equivalent to 30% of their capacity, with the goal of adding 574MW of batteries by 2028. Mexico is featured in the White Paper on Energy Storage in Latin America and the Caribbean, published by the Latin. Mexico's energy sector has unveiled a groundbreaking policy, stirring up the global energy storage market and introducing new variables to its development path. The limitations of Mexico's current infrastructure are.
