

Mobile base station equipment power

Overview

The working range of a cell site (the range which mobile devices connects reliably to the cell site) is not a fixed figure. It will depend on a number of factors, including:

- Height of antenna over surrounding terrain ().
- The frequency of signal in use.

Mobile base station equipment power

Base Stations

Murata supports high-speed and large-capacity communication by small and low loss capacitors, inductors and filters for high frequencies. Furthermore, Murata contributes to downsizing and saving ...

Military & Mobile Power

Our batteries provide a consistent and dependable power source for critical equipment, communication systems, and field operations, ensuring mission continuity in challenging conditions.

114KWh ESS

Mobile Communication Base Stations
