

# **New policy for solar power generation is released**

## Overview

---

— Today the Solar Energy Industries Association (SEIA) is unveiling a new policy agenda that details the critical actions that local, state, and federal leaders must take to strengthen the reliability of America's electric grid with solar and storage technologies. Secretary of Agriculture Brooke L. As the Trump Administration. In May 2024, several states across the U. implemented significant policy changes to bolster solar energy adoption and innovation. This month's "Solar Policy Spotlight" delves into these pivotal changes, highlighting new legislation, incentive programs, and regulatory adjustments designed to. There is a patchwork of federal, state, and local policies and regulations pertaining to renewable energy systems that impact your project development. With an ambitious target of generating 40% of the nation's. Actions to expand generation and consumption of solar and wind energy are seen in three distinct arenas: (1) incentivizing renewable energy production and use, (2) increasing the use of public lands for solar and wind energy projects, and (3) expanding electricity transmission to allow.

## New policy for solar power generation is released

---

### Renewable Energy Rule

The Energy Act of 2020 authorized the BLM to reduce acreage rents and capacity fees to promote wind and solar development, which the BLM initially implemented through guidance in 2022.

### Recent Developments in the Federal

## Multipronged Approach to ...

In June 2023, BLM published a proposed rule intended to "facilitate responsible solar and wind energy development on public lands managed by the BLM" within the existing framework created by FLPMA.

## Policies and Regulations

This page describes the patchwork of federal, state, and local policies and regulations pertaining to renewable energy systems that impact project development.

## Trump Administration Is Delaying Hundreds of Wind and Solar Projects

The extra layer of scrutiny for wind and solar contrasts with actions by the Trump administration to make it easier and cheaper for companies to produce oil, coal, gas and nuclear power.

## New Solar Energy Law Supercharges PV Production Nationwide

With an ambitious target of generating 40% of the nation's electricity from solar sources by 2035, the law establishes

**INTEGRATED DESIGN**

EASY TO TRANSPORT AND INSTALL,  
FLEXIBLE DEPLOYMENT

unprecedented tax credits for solar installations, streamlines permitting processes, and ...
