

# Open battery cabinet dimensions

## Overview

---

The size of the cabinet is 24" x 36" x 84" (width x depth x height). The sheet metal needs to meet the robustness and all related requirements for this type of heavy-duty application, including material reliability and protection against rust. This specification defines the requirements for a 75KW stand-alone battery cabinet, with 48VDC nominal voltage, self powered from the AC line, used in a DC system for offline backup functions during AC outages only. Battery Charger, Performances, Load Power. Engineered to help businesses that stock lithium-ion batteries or products to safely store them anywhere in the facility. The new lithium-ion battery storage cabinet is a versatile, mobile in-house thermal containment solution that surpasses all International Fire Code 2024 (IFC'24) storage. This is all necessary information for determining the minimum length, width and height of the enclosure. DC-couple to Generac PWRzone solar or PWRgenerator. No other smart battery offers the power and flexibility of PWRcell.
