

Pakistan imposes tax on photovoltaic panels

Overview

The federal government has introduced an 18 percent sales tax on imported solar panels as part of the Budget 2025-26, presented in the National Assembly today by Federal Minister for Finance Muhammad Aurangzeb. The move aims to create a level playing field between imported and locally manufactured. KARACHI: The recent move in the federal budget 2025-26 to impose a 10% tax on imported solar panels marks a critical turning point in the country's renewable energy journey, while impacting consumers and dealers, according to economic nationalists and clean energy advocates. The new tax, applied under the General Sales Tax (GST) framework, aims to broaden the government's revenue base amid rising fiscal pressures.
