

# **Photovoltaic panels are available in rural areas for loan installation**

## Overview

---

The Rural Energy for America Program (REAP), administered by the United States Department of Agriculture (USDA), offers Renewable Energy Systems and Energy Efficiency Improvement Guaranteed Loans and Grants. The program provides guaranteed loan financing and grant funding to agricultural producers and rural small businesses for renewable energy systems or to make energy efficiency improvements. Agricultural producers may also apply for new energy efficient equipment and new system loans for. Solar panels can reduce your electric bill and reliance on nonrenewable energy. Farmers can access funding through government grants, such as the USDA's Rural.

## Photovoltaic panels are available in rural areas for loan installation

**Efficient  
Higher Revenue**

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPPT Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 16A, Compatible with High Power Modules

**Intelligent  
Simple O&M**

- IP65 Protection Degree: support outdoor installation
- Smart IV Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

**Flexible  
Abundant Configuration**

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AEG Function (Optional): when an arc fault is detected the inverter immediately stops operation

### Energy Programs

We have programs that help convert older heating sources to cleaner technologies, produce advanced biofuels, install solar panels, build biorefineries, and much more.
