

# Photovoltaic panels arrival time

## Overview

---

Between design work, permitting, installation, and final connections and inspections, you'll likely wait 60-90 days before you can start powering your house with solar energy. Understanding Solar Panel Delivery Timelines: Solar panels typically arrive between 4 to 12 weeks after the order is placed, influenced by factors such as manufacturer location, shipping methods, and seasonal demand. Seasonality plays a significant role, as many homeowners opt for installations. The good news is that installing the panels on your roof only takes a day or two. "Typically we say it's a 60-to-90-day timeframe," said Bryce. While panels may only be on your roof for a short time, the full process includes planning, design, permitting, inspections, and utility approvals — all of which are essential for safety and long-term performance. Understanding this process is essential for.
