

Photovoltaic panels negative energy publicity display board

Overview

Designed for the modern, eco-conscious business, this outdoor signage boasts a solar-powered LED display and programmable, full-color advertisement boards. Equipped with a rechargeable battery, it provides reliable power day and night. Make a statement while staying green. Solarfox makes sustainable action visible! Solarfox® displays can show the output data of various photovoltaic and/or production systems regardless of the location. Within that, the output data can be shown cumulatively or individually/per system. Whether for companies, educational institutions or public buildings: the combination of technology, communication and design creates attention and trust.
