

Power generation companies with the highest proportion of wind power

Overview

This ranking highlights the top 15 makers of wind turbines worldwide, according to their installed capacity as of October 2025. Vestas (Vestas Wind Systems A/S). Wind power has grown substantially and is hoped to provide a significant portion of the world's energy by 2050. This clean source produces electricity without emitting greenhouse gases or pollutants and harnesses natural resources that will not run out. To achieve global decarbonisation goals in. According to preliminary statistics published today by the World Wind Energy Association, global wind power capacity has now reached 1'173'581 Megawatt - well below the estimates published by WWEA in autumn 2024. Comprising manufacturers, developers, and service providers, these companies work tirelessly to construct and maintain wind farms, design innovative turbine. Measured as a percentage of total electricity produced in the country or region.

Power generation companies with the highest proportion of wind po

Top 15 Wind Energy Companies in the US

This dataset contains yearly electricity generation, capacity, emissions, import and demand data for over 200 geographies. You can find ...

Wind Energy by State , February 2026 , Choose Energy

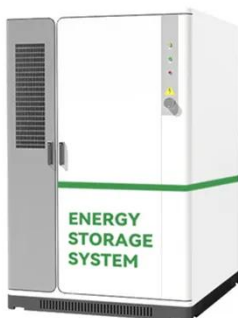

The following table shows states with significant wind energy generation, the amount (in thousand megawatt-hours) produced in November, and the percentage increase or decrease since ...

CE UN38.3 (MSDS)

Global Statistics

The countries with the largest market volume for new wind turbines were in 2024: China (86,7 GW), Brazil (5,4 GW), United States (4,2 GW), India (3,4 GW), Australia (3,3 GW), Germany ...

The 10 Largest Wind Power Companies In The World

The largest wind power company in the world is Siemens, with a revenue of \$78.03 billion. As of 2022, the global wind power market size is \$100.66 billion. Since 2005, there have been ...

Global Top 15 Wind Turbine Manufacturers [2026]

Check out our blog for the best wind turbine manufacturers, including the largest OEMs in the wind industry and leading wind power generation companies.

Share of electricity production from wind, 2025

This dataset contains yearly electricity generation, capacity, emissions, import and demand data for over 200 geographies. You can find more about Ember's methodology in this ...

Top 10 Wind Energy Companies in the US for 2024

In the following sections, we present a curated list of top wind energy companies, highlighting their unique features and contributions to the

renewable energy landscape.

Top 20 Wind Power Companies

These 20 companies, from established turbine OEMs to specialized blade and tower suppliers, are engineering the next wave of wind-power growth through cutting-edge platforms, digital asset ...

Top 10: Wind Power Companies , Energy Magazine

The top wind power companies supporting and developing renewable energy projects globally include Siemens, NextEra Energy, GE Vernova and Enel

Top 15 Wind Energy Companies in the US

Explore top wind energy companies like Pattern Energy and Apex Clean Energy that are shaping the future of renewable energy in the US.

North America Wind Power Companies

This report lists the top North America Wind Power companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert advisors conducted extensive research and identified these ...
