

Price of 2mm solar glass

Overview

Solar glass prices continued to climb this week, with 2.85) per square meter and 3.5, according to the China Nonferrous Metals Industry Association (CNMIA). Fully tempered glass is 2 times stronger than heat-strengthened glass World's 1st Manufacturer of 2 MM fully tempered solar glass. The CNMIA's silicon branch said photovoltaic glass prices rose again this. It is specially designed for encapsulation material of solar modules. The design reduces the direction, reflectance and increase the internal reflection that the solar energy can be absorbed effectively. With reduced iron content, it offers superior clarity, true color representation, and high light transmission. Modules made with such ultra-clear glass, are far more efficient than traditional PV modules as there is less glass to "stop" the sunlight getting through to the cell. 1MM-2MM CLEAR FLOAT GLASS SOLAR PANEL GLASS is the.
