

# Price of photovoltaic panels installed in the river

## Overview

---

On average, installing solar panels costs \$18,604 for a 6-kilowatt (kW) system before incentives and tax credits. The price range typically falls between \$20,548 and \$30,666, depending on various factors such as location, system size, and the type of panels used. System size, panel type, and labor needs are the biggest cost drivers, along with your roof's condition and any upgrades. Solar panels can sharply reduce your monthly energy bills. Solar panels can lower your electricity bill by 75% or more, but the upfront investment is significant. Cost per watt is an essential.
