

Seoul military solar-powered communication cabinet inverter

Seoul military solar-powered communication cabinet inverter

U.S. officials Investigating Rogue Communication Devices in Solar Power

U.S. energy officials have launched an investigation after discovering unauthorized communication equipment embedded within Chinese-manufactured solar power inverters connected ...

What Could Possibly Go Wrong? Communications Devices Found

So it's a matter of some concern when we find unexpected communications devices hidden inside Chinese-made power inverters that form a part of this grid.

China's Unseen Cyber Threat to Energy Security

Undocumented radios found in Chinese-made solar inverters pose a threat to U.S. energy infrastructure and security, enabling disruption of critical systems.

Communications Backdoor in

Chinese Power Inverters

Reuters was unable to determine how many solar power inverters and batteries they have looked at. The rogue components provide additional, undocumented communication channels ...

Seoul Military Communication Base Station Inverter

The Energy storage system of communication base station is a comprehensive solution designed for various critical infrastructure scenarios, including communication base stations, smart

Chinese inverter security risks expose overreliance in Korea's solar

The discovery of unidentified devices in Chinese-made solar inverters in the United States has fueled tighter scrutiny in Korea -- where most solar power components are imported from ...

Hidden Devices in Solar Grid Inverters and Batteries

Over the past nine months, forensic security teams have logged multiple

brands of Chinese solar inverters containing hidden wireless communication equipment. Investigators have ...

Rogue communication devices found in Chinese solar power inverters

The two people declined to name the Chinese manufacturers of the inverters and batteries with extra communication devices, nor say how many they had found in total.

Chinese energy tech exports found to contain hidden comms and ...

Rogue communication devices have been discovered in Chinese made solar inverters, devices which play a 'critical role' in renewable energy infrastructure, Reuters reports.

US uncovers hidden radios in Chinese solar inverters, sparks alarm

U.S. energy officials are reportedly reassessing the security risks posed by Chinese-made components in renewable

energy infrastructure after discovering
hidden communication ...
